

and which has a second tear line aligned with said tear seam in said cover wall, said second tear line being spaced apart from said first tear line along a line extending along said first and second tear lines, said horn switch being rupturable along said first and second tear lines upon inflation of the air bag,

said horn switch including an envelope of electrically insulating material extending around said first and second layers of electrically conductive material, said envelope including a first portion extending around said first portion of said first layer and including a second portion which is spaced from said first portion and which extends around said second portion of said second layer.

REMARKS

Reconsideration of the above-identified application in view of the present amendment is respectfully requested.

Claims 17-18 have been rewritten in independent form and place the above-identified application in form for appeal.

Please charge any deficiency or credit any overpayment in  
the fees for this amendment to our Deposit Account  
No. 20-0090.

Respectfully submitted,

  
Robert N. Lipcsik
